

Messenger

**Broadcast
Manager**

**Custom Bell tone
Scheduling
System**

1. Sets up custom notification schedules with complete control.
2. Supports Cisco IP phones, legacy paging systems and external phones.
3. Selects DTMF zones for multi-zone systems.
4. Extends legacy 100v paging systems to IP phones.
5. Provides easy management of broadcast schedules, notification tones and external phones via a web interface.
6. Administers the system from any licensed network computer
